

DESCRIPTION

The Cessna Grand Caravan is a modern passenger/cargo aircraft operated on wheels. Safe and reliable, it is very economical to operate, competing favorably with much larger aircraft on a cost per pound/passenger basis. With a full load of nine passengers, and 1000 lbs of baggage and cargo, it can still hold I.F.R. reserve fuel. The Caravan comes equipped with a large cargo door, baggage pod and commuter seats.

Engines

One Pratt and Whitney PT6A-114A turbine engine rated at 675 shaft-horsepower

Fleet Size

3

Available Landing Gear

Wheels

Ice / Gravel Strips

Yes / Yes

Available Passenger Capacity

9

Cruise Speed

170 mph

Cargo Door Size

50" x 50"

Cargo Payload

3,000 lbs / 450 cu ft
